

Test Report of Bolt seal SKL C001T-3.0

This is certify that the test results for the mentioned cable seal of model No SKL C001T-3.0 classify to security seal in the tensile performance and h high security seals in the bending performance , and indicative seal in shear and impact performances respectively according to specification of ISO/PAS 17712: 2013. Aspects include tensile properties with tensile force is about 500KG to 700KG.
